

Proposed Mynydd y Gaer Wind Farm

Constraints Plan: Ecology, Heritage and Watercourses

23/1/2025 Scale 1:12,500 @ A3
Drwg: MyG4-1lg-Part 1

- Red line
- All proposed wind farm site layout features
- Archaeology - protected line of sight
- Scheduled ancient monuments
- Groundwater management zones
- Areas of very high ecological constraint that should be avoided
- Areas of high ecological constraint to be avoided if possible
- Areas of medium ecological constraint able to be mitigated if impacted
- Areas of low ecological constraint able to be mitigated if impacted
- Areas of very low ecological constraint, easily mitigated if impacted
- Areas of limited ecological baseline information
- Peatland of Wales Evidence Index (1-10)
- Existing Ridgeway Walk
- Existing public footpaths
- Existing bridleways
- Existing byway open to all traffic (BOAT). Proposed to be downgraded to a restricted byway
- Woodland enhancement area to be managed by Cenin
